Subject: Welcome to the New Epsilon Gamma Website

Brothers and Initiates of __,

We have a new website, and if you want to quit reading this and go check it out, I recommend doing that first:

latechkappasig.org

We have had that address for years, and the main pages are similar. The Member pages are what set this apart and give us something we have never really had before.

Here's what's included:

Home – Where you will find one of my favorite features: Shoutouts!

Documents – Strictly business. If you need information on the campaign, it is there.

Donate – You can already do that on the public site. Not fun, but necessary.

Directory – And I'm not talking about just your class. I'm talking about the Epsilon Gamma directory. And YOU can update it.

Chapter Celestial – Do you remember during rush being told that Kappa Sigma is the only fraternity with a Celestial to honor deceased brothers? Later we found out the Celestial was basically just a list. Well... Epsilon Gamma now has a real Celestial.

Sponsors – This might be a way for your "gift" to the fraternity to become a business expense.

Job Board – Why didn't we have this when we were coming out of La Tech? And wouldn't it be nice to have a list of qualified brothers to help fill critical roles? Now we do.

Gallery – This could get out of hand. The Gallery is already scaring me after Neal Carlisle loaded the first batch of photos. We had to cull some of those. Composites are coming in – we will put those on their own page soon.

I would like to give you an update on the campaign, but I got sidetracked. The information is on the website. I'm sure a good website developer would still be polishing things before launch, but I'm not good, and I didn't finish in time for all of that. (In fact, as you will see, it is not finished and will need your help to complete.)

So, I'm launching it and heading out of town for a vacation.

My daughter is in charge now. Y'all have fun with the site and good luck.

Thanks,

Scott Schneider '86

P.S. - The site is password protected with individual accounts. When you sign up, you will provide your email and whatever password you can remember (it does not have to include the name of a president you hate).

You will receive a verification email. Once verified, we confirm you are a member of the Epsilon Gamma chapter. If your email is already in our records, approval should happen automatically within a few seconds. If not, we will manually verify and approve your account, which may take a few days.

In the meantime, you can still access the site by going to:

latechkappasig.org/private

and using the method and group password previously provided.

The group-password option will only be available for a limited time.

P.P.S. – Some of you may have told Nationals you were deceased just to get them to stop hounding you for donations. I have already pulled a few brothers back from the “dead.”

If you see a brother in the Celestial who is actually alive and well, please help bring him back. Just click his Celestial entry and leave a note like “He is still kicking,” and we will resurrect him. Or you can just email or text me.
