Subject: Your Epsilon-Gamma Campaign Dashboard Is Ready

Dear Brother __,

The Twelfth Gate Housing Campaign has reached an important stage. Contributions and commitments during the current quarter have exceeded those received in any quarter since the original chapter house campaign, and we are approaching a significant milestone on **August 1, 2026**, when we expect to finalize negotiations with our lender to refinance the remaining chapter house debt and eliminate the personal guarantees that have supported the loan since construction.

As we prepare for that milestone, we've launched a new **My Account** page that allows each brother to review his campaign information, giving history, recognition level, class progress, memorial recognitions, and update his contact information. We've also introduced a **temporary recognition opportunity** to encourage broader participation before refinancing.

To make access simple, we've included your own secure, personalized link below. You do not need to remember a password or create an account.

Your Personal Access Link

https://www.latechkappasig.org/open-my-account?token=*****

Please note: After opening your personal access link, the dashboard may take about 20 seconds to fully load while the system securely retrieves and processes your personalized campaign information. Thank you for your patience.

Please keep this link for your personal use, as it provides direct access to your personalized campaign dashboard, including your giving history, recognition information, and other account details.

Once you've logged in, we encourage you to verify your contact information, review your giving history and current recognition, see your class's progress toward the Class Leaderboard Plaque, and explore the new Campaign Planning Calculator.

Every contribution and commitment received before **August 1** helps reduce the amount that must be refinanced, strengthens our position during those negotiations, and moves us one step closer to securing the long-term financial future of Epsilon-Gamma.

AEKDB,

Twelfth Gate Foundation Board
